

CERTIFICATION OF HEIGHT

Assessor's Parcel No.: _____
Site Address: _____
Plan Check No.: _____
Owner's Name: _____

This is to certify that on _____ the structure being constructed on the above referenced site was surveyed by the undersigned. The height from the natural grade / finished floor to the highest point of the roof ridge elevation was found to be in conformance with the approved story pole, plot and building plans. These surveyed measurements do / do not (circle one) include all existing and forthcoming framing and roofing materials (such as plywood, roofing material, tiles, etc). If these surveyed measurements do not include all framing and roofing materials, this additional material will not exceed a maximum height of an additional _____ inches. The measurements were as follows:

Highest point of roof ridge elevation:	_____	(M.S.L.)*
Natural grade elevation:	_____	(M.S.L.)*
Finished grade elevation:	_____	(M.S.L.)*
Finished floor elevation:	_____	(M.S.L.)*
Total Height:	_____	

Other elevations as required
by the Planning Department:

It is understood and certified by the below signature that the finished structure, including all roofing materials cannot exceed the maximum height approved. For additional information, please contact me at: _____ (phone number)

Licensed Land Surveyor

SEAL OF REGISTRATION:

* Mean Sea Level – All measurements must utilize an established off-site benchmark that will not change over the course of the project.
