HIGHWAY 101 WESTSIDE IMPROVEMENTS

FOR ALL BUSINESSES & RESIDENTS

*It is time for construction improvements of Highway 101
in the City of Solana Beach!*

On Monday, July 9, 2012, DMI (Dick Miller Inc.) began reconstruction of Highway 101 in the City of Solana Beach from Cliff Street to Dahlia Drive. The improvements generally consist of removal and replacement of roadway paving, sidewalk paving, landscape plantings, irrigation system, traffic signals, street light systems, water features, enhanced pedestrian improvements, drainage improvements, water line relocation and traffic control. During construction, various types of traffic control devices will be used to move automobiles, bicycles and pedestrian traffic safely through the construction zone. Traffic speeds will be reduced to 25 MPH in the construction zone. For your own safety, please observe all traffic control signs.

While we will try to minimize it, **EXPECT TRAFFIC DELAYS THROUGH THE WORK ZONE.**

Thank you for your patience and understanding. We recognize this construction is an inconvenience to all businesses and residents. **We appreciate your patience.** The benefit of construction today results in improved traffic flow, pedestrian and bicycle access, drainage improvements and sustainable infrastructure for your future.

Emergencies regarding construction: Doug Maher is DMI's representative designated as the emergency contact. Doug will be working hard at managing the day to day activities of the project. Please feel free to contact him directly in case of emergencies at 619-933-3547. The main contact at the City is Dan Goldberg, who can be reached at 858-720-2470.

Sincerely,

Dick Miller, Inc.
