

WHAT IS TAKE ME HOME?

The Sheriff's Department maintains a FREE and CONFIDENTIAL database of people who may not be able to speak to a first responder if they get lost or wander away. The registry is for people with physical or mental challenges or disabilities or medical conditions (i.e. autism, Alzheimer's, Down Syndrome, etc.). This regional database is accessible only to local law enforcement agencies.

The *Take Me Home* registry stores photos and emergency contact information of people who are at risk. It also lists whether they are verbal or non-verbal and if they have serious health concerns such as seizures or take medications. Other information includes how they react under stress, how to approach them and their interests which could provide a clue to their whereabouts, as well as special care instructions.

Sign up for the *Take Me Home* program through our partner agencies.

Take Me **HOME** PROGRAM

HOW DOES IT WORK?

If deputies find someone who can't communicate where he or she lives, they can search the *Take Me Home* database by description and return the person to his or her loved ones. The system also works in reverse – if a loved one goes missing or wanders away, his or her picture and description is immediately available to help with the search. Only law enforcement personnel can access the *Take Me Home* database.

ENROLLMENT IS EASY

Caregivers can enroll special needs family members, friends, or clients by calling a Crime Prevention Specialist at their local Sheriff's Station or Substation. They can also make an appointment during business hours. They must provide an updated photograph and a completed form from www.sdsheriff.net/tmh for entry into the *Take Me Home* database.
