

ORDINANCE 506

ORDINANCE OF THE CITY OF SOLANA BEACH, CALIFORNIA, RESCINDING TITLE 15, CHAPTERS 15.04, 15.08, 15.10, 15.12, 15.16, 15.20, 15.22, 15.23, 15.24; 15.28, 15.32, 15.33, 15.34 AND 15.35 OF THE SOLANA BEACH MUNICIPAL CODE AND ADOPTING NEW CHAPTERS 15.04, 15.08, 15.10, 15.12, 15.16, 15.20, 15.22, 15.23, 15.24, 15.32, 15.33, 15.34 AND 15.35 REGARDING THE 2019 CALIFORNIA BUILDING STANDARDS, WHICH INCLUDES, THE 2019 CALIFORNIA ADMINISTRATIVE CODE; THE 2019 CALIFORNIA BUILDING CODE; THE 2019 CALIFORNIA RESIDENTIAL CODE; THE 2019 CALIFORNIA ELECTRICAL CODE; THE 2019 CALIFORNIA PLUMBING CODE; THE 2019 CALIFORNIA MECHANICAL CODE; THE 2019 CALIFORNIA ENERGY CODE; THE 2019 CALIFORNIA GREEN BUILDING CODE; THE 2018 INTERNATIONAL PROPERTY MAINTENANCE CODE; THE 2019 CALIFORNIA FIRE CODE AND 2018 INTERNATIONAL FIRE CODE; THE 2019 CALIFORNIA HISTORICAL BUILDING CODE, THE 2019 CALIFORNIA EXISTING BUILDING CODE, AND THE 2019 CALIFORNIA REFERENCED STANDARDS CODE.

WHEREAS, on October 23, 2019 the City Council of the City of Solana Beach held a public hearing on this proposed ordinance; and

WHEREAS, the City of Solana Beach last revised its construction codes in 2016; and

WHEREAS, California Health and Safety Code section 17958 requires that cities adopt building regulations that are substantially the same as those adopted by the California Building Standards Commission and contained in the California Building Standards; and

WHEREAS, the City Council finds that the modifications and changes to the Uniform Codes are reasonably necessary because of the following climatic, geologic, and topographical conditions:

1. The City is situated in hilly, inland terrain. Approximately 50% of the area, for fire purposes, is wildland", covered by native vegetation on steep inaccessible hillsides. The native ground cover is highly combustible grasses, dense brush and chaparral. Natural firebreaks in these areas are insignificant.
2. The climate is warm and dry. The winds prevail from the west with seasonal strong dry east winds that vary in duration and intensity. These winds can significantly enlarge wildland fire as well as cause abrupt and unpredictable changes in fire direction. Temperatures ranging between 75 and 100 degrees F are common throughout the year.

3. The potential for fire damage is great in the wildland area, as such, a fire can spread rapidly, and difficult terrain and explosive vegetation can slow response time.
4. Rural roads include many narrow winding roadways, often with grades in excess of that necessary for optimal response time for large fire apparatus. An additional factor affecting response time is the distance between the two fire stations and the fire location.
5. The water supply is limited making it necessary for fire apparatus to travel time consuming distances to refill once their initial water supply has been utilized.

WHEREAS, As required by Health and Safety Code section 17958 the City of Solana Beach does herewith make express findings that amendments to the California Building Standards Code are necessary for the protection of the public health, safety and welfare due certain climatic, topographic or geological features existing in the City of Solana Beach. The City Council hereby makes the following findings concerning the special circumstances and the climatic, topographic and geological conditions that: (a) exist in the City of Solana Beach; (b) increase the exposure of the public to the dangers of fire; (c) could severely restrict the response of emergency services to fire dangers; and (d) can be mitigated by amendments to the international fire and construction codes:

1. The City of Solana Beach is bisected by a major transportation corridor (Interstate 5) which traverses in a north/south direction. Interstate 5 is used to transport hazardous materials and is designated by the State of California as an approved route for transporting highly toxic and radioactive materials.

The City of Solana Beach is bisected by a railroad line running north/south. Hazardous materials are transported on the railroad.

Underground pipes run parallel to the railroad line and carry natural gas under high pressure. Underground pipes run in a north/south direction in the eastern portion of the City and carry liquid petroleum under high pressure.

The transport, through the City, of hazardous, toxic and radioactive materials, as well as natural gas and liquid petroleum, on a regular basis, increases the threat of fire ignition and spread. This adds to the fire danger posed by the City's climatic, topographic and geological conditions.

2. The City of Solana Beach topography is characterized by many large hillsides. The City's climate promotes the heavy growth of natural vegetation that covers the hillsides and is highly flammable, especially in the dry season. There are numerous areas of wildland-urban interface where structures, especially residences, are in close proximity to the natural vegetation.

The City's climate is characterized by Santa Ana conditions involving dry gusty winds. In summer and fall, the typical weather is hot and dry. In combination, these climatic conditions create an extreme fire danger to the community.

Seasonal winds also have the potential for impeding emergency vehicle access by toppling trees (especially eucalyptus and pine which is a species that is prevalent in the City and susceptible to being felled by winds). As a result of the above conditions, the risk of fire ignition is greater. Also, once a fire is ignited, it is more likely that embers will be blown into the air, increasing the spread of the fire into the community. Therefore, land use projects need to be developed to provide a greater ability to avoid fire ignition, suppress fires, and facilitate access of emergency vehicles.

3. The City of Solana Beach is situated on the west slope of the coastal foothills that contain drainages, which contribute to flooding within the community.

Because flooding conditions can impede fire service vehicles reaching the site of a fire, land use projects need to be developed to provide a greater ability to avoid fire ignition, suppress fires, and facilitate access of emergency vehicles.

4. The City of Solana Beach is situated near the Rose Canyon Fault, the Elsinore Fault, and the Agua Caliente Fault. A cluster of faults known as the "South Coast Offshore Zone of Deformation" is located off the City's coast. These geologic conditions are capable of generating earthquakes of significant magnitude at any time.

An earthquake may: (1) cause fires; (2) impede emergency vehicles responding to fires; and (3) interrupt the City's water supply which is needed to fight fires.

Because the community is subject to damage from earthquakes, land use projects need to be developed to provide a greater ability to avoid fire ignition, suppress fires, and facilitate access of emergency vehicles.

5. The City of Solana Beach and Southern California are semi-arid regions and experience water shortages from time to time. Those shortages can have a severely adverse effect on water availability for firefighting. Fires starting in sprinkled buildings are typically controlled by one to three sprinkler heads, flowing as little as 13 gallons per minute.

Hose streams used by engine companies on well-established structure fires operate at approximately 250 gallons per minute each, and the estimated water needed for a typical residential fire is 1,250 to 1,500 gallons per minute, according to the Insurance Service Office and the International Fire Code.

The water estimate for a commercial building is typically greater than that of a residential structure.

Under circumstances such as; lack of water, infrastructure, earthquakes, multiple fires and wildland fires within a community, the limited water demand needs of residential fire sprinklers would control and extinguish many fires before they spread from building to wildland or building to building. In such a disaster, water demands needed for conflagration firefighting probably would not be available.

6. Due to the sloping topography and coastal foothills in the City of Solana Beach, the potential exists that new and future development will result in taller buildings on smaller parcels. Defining mid-rise buildings from 75 feet in height to 4 story modifies the application of special provisions for these buildings to all occupancies. Because of the need to mitigate the potential danger of mid-rise this change is necessary.
7. In addition, the limitations of available firefighting equipment, limited availability of human resources in local fire departments, and the necessity to climb vertically up flights of stairs, greatly impacting the response time to reach an incident scene, it is necessary to define the height of mid-rise buildings. The reduced height and built in protection will mitigate extended fire department response time and keep incidents manageable. Based upon the circumstances previously described, the protection of persons and property requires the City to adopt standards that are more stringent than those set forth in: (1) the State Building Standards Code Sections 202, 308, 321, 503, 507, 902, 903, 905, 5608, 5704, 5706, 6104, B, I and Section 3 of the International Fire Code.

NOW, THEREFORE, BE IT ORDAINED AS FOLLOWS:

SECTION 1: The City Council of the City of Solana Beach finds that this project is exempt from the provisions of the California Environmental Quality Act pursuant to Section 15061 (b) 3 in that the adoption of the State mandated building codes as proposed could not cause an adverse impact on the environment.

SECTION 2: The City Council of the City of Solana Beach hereby:

A. Rescinds Chapters 15.04, 15.08, 15.10, 15.12, 15.16, 15.20, 15.22, 15.23, 15.24, 15.28, 15.32, 15.33, 15.34, and 15.35 of the Solana Beach Municipal Code (Ordinance 471); and

B. Adopts new Chapters 15.04, 15.08, 15.10, 15.12, 15.16, 15.20, 15.22, 15.23, 15.24, 15.28, 15.32, 15.33, 15.34 and 15.35 of the Solana Beach Municipal Code to read as follows:

Chapter 15.04

CALIFORNIA ADMINISTRATIVE CODE

Chapter 15.04 CALIFORNIA ADMINISTRATIVE CODE

Adoption of the California Administrative Code, Part 1, Title 24 of the 2019 California Code of Regulations.

The California Administrative Code, 2019 edition, Chapter 15.04 is adopted by reference without change to Buildings and Construction Title 15.

Chapter 15.08

BUILDING CODE

Sections:

- 15.08.010 Adoption**

- 15.08.090. Appendices adopted**

15.08.010 Adoption of the California Building Code. Part 2. Title 24 of the California Code of Regulations.

A. There is adopted and incorporated by reference herein as the city building code for the purpose of prescribing regulations in the City of Solana Beach for the erection, construction, enlargement, alteration, repair, moving, removal, conversion, demolition, occupancy, equipment, use, height, area, and maintenance of buildings and structures, the 2019 California Building Code, Part 2, Title 24 of the California Code of Regulations, a portion of the 2019 California Building Standards Code, as defined in the California State Health and Safety Code, Section 18901 et seq. , including those Appendix Chapters not shown as deleted by this Chapter. Except as otherwise provided by this Chapter all erection, construction, enlargement, alteration, repair, moving, removal, conversion, demolition, occupancy, equipment, use, height, area and maintenance of buildings and structures within the City of Solana Beach shall be in conformance with the 2019 California Building Code which is based on the International Building Code, 2018 Edition and the adopted Appendix chapters, published by the California Building Standards Commission.

B. Findings. The City of Solana Beach has many large brush-covered hillsides. The City is subject to frequent Santa Ana conditions consisting of dry gusting winds, which

create extreme fire dangers. The City Council specifically finds that these geographic and topographic conditions necessitate greater fire protection than that provided by the State Building Code. Therefore, this chapter alters the 2019 California Building Code, to require more fire-retardant roof coverings.

C. Deletions, revisions and additions to the 2019 California Building Code shall be as follows:

15.08.020 Section 105.1.3 added.

Permits shall not be issued for construction on a site until the Director of Community Development, or his designee, determines that all other development permits or approvals required by this code or city ordinance have been issued, and that all site preparation, grading or public improvement work has been satisfactorily completed to allow building permits to be issued, and so notifies the Building Official in writing.

Permits shall not be issued if the City Engineer determines that flooding or geologic conditions at the site endanger the public safety or welfare.

15.08.030 Section 105.8 added.

105.8 Progress of work and call for inspections.

1. The provisions of this subparagraph 1 shall apply to building permits issued for single family residential structures or accessory structures on lots zoned for single family dwellings. All work under a building permit shall be completed and call for final inspection of the work shall be made not more than 24 months from the date that the permit was first issued; provided, however, that all exterior work shall be completed and call for final inspection of the exterior work shall be made not more than 12 months from the date that the permit was first issued. Upon written request of permittee, or the owner where the permittee is not the owner, the building official with the written consent of the City Manager, may one-time extend the time periods established by this paragraph for a maximum cumulative time of six months if both of the following are met: (i) the permittee is not in violation of the permit or any of the uniform construction codes adopted by the city; and(ii) the permittee has diligently done work under the permit, but for a good cause shown the work has not been able to be completed within the specified time. The City Manager shall provide a copy of this section to any permittee seeking a first-time extension request and shall advise the permittee of the regulations relating to second request for time extensions.
2. The provisions of this paragraph 2 shall apply to permits issued for all construction other than construction subject to paragraph 1 above. All work under a building permit shall be completed and call for final inspection of the work shall be made not more than 24 months from the date that the permit was first issued. Upon written request of the permittee, or owner where the

permittee is not the owner, the building official with the written consent of the City manager, may extend that time periods established by this paragraph for a maximum cumulative time period of one year if both of the following are met: (i) the permittee is not in violation of the permit or any of the uniform construction codes adopted by reference by the City; and (ii) the permittee has diligently done work under the permit, but for good cause shown the work has not been able to be completed within the specified time. The City Manager shall provide a copy of this section to any permittee seeking a first-time extension request and shall advise the permittee of the regulations relating to the time extensions.

3. The provisions of this subparagraph 3 shall apply to permits issued for all construction where work pursuant to the permit is undertaken to cure or abate a notice of violation of any city ordinance or state statute, including but not limited to violations resulting from construction commenced without the prior issuance of a permit. All such work shall be completed not less than nine months after the issuance of the permit or within such shorter period of time as may be established by order of an officer or employee authorized to enforce the provisions of this code, or the city attorney, as a consequence of code enforcement activity. Extensions of time may be granted by the city council.
4. In addition to the other penalties, a violation by a permittee of the provisions of this subsection (f) shall be grounds for revocation of the permit.
5. In order to recommence work on a project for which the permit has been revoked under the provisions of this subsection (f), the permittee shall submit a new permit application accompanied by new full plan review fees and complete plans and specifications for review by all applicable agencies and/or City departments. Before a new permit can be issued, the permittee shall pay a new full permit fee. Failure to remove the partially completed work shall cause the work to be considered a dangerous building or structure and the City may proceed with abatement of the work as a public nuisance.
6. If a permittee desires more than one extension of the time periods for completion under Subsection (1) and (2) of this Section, the permittee must make a written application to the Community Development Director at least 30 days prior to the expiration of the permit. Such extension of time may be granted by the City Council at a public meeting. The applicant must provide a 300-foot public notice package to the Planning Department.

15.08.040 Section 109.5.1 PERMIT HISTORY SURVEY FEE.

Section 109.5.1 The fee for conducting a permit history survey for an existing structure or facility shall be established by a resolution adopted by the City Council.

15.08.050 Section 109.7 added.

Section 109.7. The United States, the State of California, school districts, the County of San Diego, or the City shall not be required to pay any fee for filing an application for a building permit pursuant to this Code, unless City building inspection services are requested. If so requested, the regular fee schedule shall apply.

15.08.060 Section 110.1.1 added.

110.1.1 INSPECTION RECORD CARD.

1. **INSPECTION RECORD CARD.** Work requiring a permit shall not be commenced until the permit holder or his agent shall have posted or otherwise made available and inspection record card such as to allow the building official to conveniently make the required entries thereon regarding inspection of the work. This card shall be maintained available by the permit holder until final approval has been granted by the building official.

2. **CIRCUIT CARDS.** A complete schedule of circuits, showing the number and arrangement of outlets on each circuit, shall be posted or otherwise made available at the service equipment location prior requesting inspection of the rough electrical wiring. Circuit cards furnished by the building official shall be used for this purpose. In lieu of a circuit card, an approved wiring plan may be used.

15.08.070 Section 113.3 amended.

Section 113.3. **BUILDING CONSTRUCTION APPEALS BOARD.** The City Council shall serve as the Appeals Board to hear appeals of any code interpretation by the City Building Official.

15.08.080 Table 1505.1 Amended. Table 1505.1 of the 2019 California Building Code is amended to read as follows:

Chapter 15.10

RESIDENTIAL CODE

Sections:

15.10.010 Adoption

15.10.020. Deletions, revisions and additions

15.10.030 Section R101.1 Title Amended.

15.10.040 Section R105.3.1 Amended.

15.10.050 Section R108.1.1 Added.

15.10.060 Section R112.1 Amended.

15.10.070 Section R902.1.3 Amended.

15.10.080 Section R313.1 Exception amended.

15.10.090 Section R313.2 Exception amended.

15.10.100 Appendix H Adopted.

15.10.010 Adoption of the California Residential Code, Part 2.5, Title 24 of the California Code of Regulations. There is adopted and incorporated by reference herein as the city residential code for the purpose of prescribing regulations in the City of Solana Beach for the construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, location, removal and demolition of one- and two-family dwellings and townhouses not over three stories above grade and their accessory structures, the 2019 California Residential Code, Part 2.5, Title 24 of the California Code of Regulations a portion of the California Building Standards Code. Except as otherwise provided by this Chapter of the City of Solana Beach Municipal Code, all construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, location, removal and demolition of one- and two-family dwellings and townhouses not more than three stories above grade, shall be in conformance with the 2019 California Residential Code which is based on the International Residential Code, 2018 Edition, and the adopted appendix chapters, published by the California Building Standards Commission.

15.10.020 Deletions, revisions and additions to the California Residential Code and the International Residential Code, 2018 Edition, shall be as follows:

Chapter 1, DIVISION II, SCOPE AND ADMINISTRATION, of the California Residential Code, 2019 Edition, shall be amended as follows:

15.10.030 Section R101.1 Title Amended. “City of Solana Beach,”

15.10.040 R105.3.1 Action on applications Amended.

Permits shall not be issued for construction on a site until the Director of Community Development, or his designee, determines that all other development permits or approvals required by this code or city ordinance have been issued, and that all site preparation, grading or public improvement work has been satisfactorily completed to allow building permits to be issued, and so notifies the Building Official in writing. Permits shall not be issued if the City Engineer determines that flooding or geologic conditions at the site endanger the public safety or welfare.

15.10.050 Section R108.1.1 shall be added: The United States, the State of California, school districts, the County of San Diego, or the City shall not be required to pay any fee for filing an application for a building permit pursuant to this Code, unless

City building inspection services are requested. If so requested, the regular fee schedule shall apply.

15.10.060 Section R112.1 Amended: "The City Council shall serve as the Appeals Board to hear appeals of any code interpretation by the City Building Official."

15.10.070 Section R902.1.3 amended. Section R902.1.3 is amended to read as follows: R902.1.3 Roof coverings in all other areas. The entire roof covering of every existing structure where more than 50 percent of the total roof area is replaced within a one-year period, the entire roof covering of every new structure, and any roof covering applied in the alteration, repair or replacement of the roof of every existing structure, shall be fire-retardant roof covering that is at least Class A.

15.10.080 Section R313.1 Exception amended. Section R313.1 Exception is amended to read as follows: R313.1 Exception: An automatic residential fire sprinkler system may be required by the fire code official when additions or alterations are made to existing townhouses that do not have an automatic residential fire sprinkler system installed.

15.10.090 Section R313.2(1) amended. Section 313.2(1) Exception is amended to read as follows: R313.2 Exception: An automatic residential fire sprinkler system may be required by the fire code official when additions or alterations to existing buildings that are not already provided with an automatic residential fire sprinkler system.

15.10.100 Appendix H adopted. Appendix H of the California Residential Code is adopted.

Chapter 15.12

ELECTRICAL CODE

Sections:

15.12.010 Adoption.

15.12.010 Adoption of the California Electrical Code, Part 3, Title 24 of the California Code of Regulations. There is adopted and incorporated by reference herein as the city electrical code for the purpose of prescribing regulations in the City of Solana Beach, for the installation, alteration or repair of electrical systems and permit requirements and inspection thereof, the 2019 California Electrical Code, Part 3, Title 24 of the California Code of Regulations, a portion of the California Building Standards Code. Except as otherwise provided by this Chapter of the City of Solana Beach Municipal Code, all installation, alteration or repair of electrical systems within the City of Solana Beach shall be in conformance with California Electrical Code, published by the California Building Standards Commission.

Chapter 15.16

PLUMBING CODE

Sections:

15.16.010 Adoption

15.16.020 Deletions.

15.16.010 Adoption of the California Plumbing Code. Part 5. Title 24 of the California Code of Regulations. There is adopted and incorporated by reference herein as the city plumbing code for the purpose of prescribing regulations in the City of Solana Beach for the construction, alteration, moving, demolition, repair and use of all plumbing, gas or drainage piping and systems or water heating or treating equipment in or on any building or structure or outdoors on any premises or property, the 2019 California Plumbing Code, Part 5, Title 24 of the California Code of Regulations, a portion of the California Building Standards Code, as defined in the California Health and Safety Code, Section 18901 et seq. Except as otherwise provided by this Chapter of the City of Solana Beach Municipal Code, all construction, alteration, moving, demolition, repair and use of all plumbing, gas or drainage piping and systems or water heating or treating equipment within the City of Solana Beach shall be in conformance with 2019 California Plumbing Code and the Uniform Plumbing Code 2018 Edition, published by the California Building Standards Commission.

15.16.020 Deletions to the 2019 California Plumbing Code.

Chapter 15.20

MECHANICAL CODE

Sections:

15.20.010 Adoption.

15.20.030 Deletions.

15.20.010 Adoption of the California Mechanical Code. Part 4. Title 24 of the California Code of Regulations. There is adopted and incorporated by reference herein as the city mechanical code for the purpose of prescribing regulations in the City of Solana Beach for the erection, installation, alteration, repair, relocation, replacement, addition to, use or maintenance of any heating, ventilating, cooling, refrigeration systems, incinerators or other miscellaneous heat-producing appliances, the 2019 California Mechanical Code, Part 4, Title 24 of the California Code of Regulations, a portion of the California Building Standards Code, as defined in the California Health and Safety Code, Section 18901 et seq. which is based on the Uniform Mechanical Code, 2018 Edition. Except as otherwise provided by this Chapter all erection, installation, alteration, repair, relocation, replacement, addition to, use or maintenance of any heating, ventilating, cooling, refrigeration systems, incinerators or other miscellaneous heat-producing appliances shall be in conformance with the 2019 California Mechanical Code and any rules and regulations promulgated pursuant thereto, published by the California Building Standards Commission.

15.20.020 Deletions to the 2019 California Mechanical Code.

Chapter 15.22

ENERGY CODE

Sections:

15.22.010 Adoption.

15.22013 Adoption of the California Energy Code. Part 6. Title 24 of the California Code of Regulations. There is adopted and incorporated by reference herein as the city energy code for the purpose of prescribing regulations in the City of Solana Beach for the conservation of energy the 2019 California Energy Code, Part 6, Title 24 of the California Code of Regulations, a portion of the California Building Standards Code, as defined in the California Health and Safety Code, Section 18901 et seq. Except as otherwise provided by this Chapter all construction of buildings where energy will be utilized shall be in conformance with 2019 California State Code and any rules and regulations promulgated pursuant thereto as published by the California Building Standards Commission.

Chapter 15.23

GREEN BUILDING CODE

Sections:

15.23.10 Adoption

15.23.010 Adoption of the California Green Building Standards Code, Part 11, Title 24 of the California Code of Regulations. There is adopted and incorporated by reference herein as the city green building code for the purpose of improving public health, safety and general welfare by enhanced design and construction of buildings through the use of building concepts having a reduced negative impact or a positive environmental impact and encourage sustainable construction practices the 2019 California Green Building Standards Code, Part 11 of Title 24 of the California Code of Regulations, a portion of the California Building Standards Code, as defined in the California Health and Safety Code , Section 18901 et. seq. excluding the appendix chapters. Except as otherwise provided by this Chapter the planning, design, operation, construction, use and occupancy of every newly constructed building or structure, shall be in conformance with the 2019 California Green Building Code and any rules and regulations promulgated pursuant thereto as published by the California Building Standards Commission.

Chapter 15.24

INTERNATIONAL PROPERTY MAINTENANCE CODE

Sections:

15.24.10 Adoption

15.24.010 adoption of the International Property Maintenance Code. The International Property Maintenance Code, 2018 edition, Chapter 15.24 is adopted by reference without change to Buildings and Construction Title 15.

Chapter 15.32

FIRE CODE

Sections:

- 15.32.010 Adoption of the 2019 California Fire Code
- 15.32.030 Definitions – Revised
- 15.32.040 Establishment of limits of districts in which storage of flammable or combustible liquids in outside above ground tanks is prohibited.
- 15.32.050 Section 308.1.6.3 – Sky Lanterns
- 15.32.100 Section 321 - Revised – Mid-Rise Buildings
- 15.32.110 Section 6106.6 - Revised – Fees
- 15.32.120 Section 114.1 – Firefighting cost recovery
- 15.32.130 Section 109.5 Added – Enforcement cost recovery.
- 15.32.170 Section 503 – Fire Apparatus Access Roads
- 15.32.190 Sections 503.4.2, 503.4.3 - Added – Fire lane parking restrictions
- 15.32.200 Section 503.6 - Revised – Security gates
- 15.32.210 Section 507 - Revised – Fire Protection Water Supplies.
- 15.32.230 Sections 903, 905 - Revised – General fire extinguishing system requirements
- 15.32.350 Sections 5608.2 – 5608.3 - Added - Explosives and Fireworks

15.32.010 Adoption of California Fire Code

- A. That a certain document, three (3) copies of which are on file in the office of the City of Solana Beach Fire Department being marked and designated as the 2019 California Fire Code, including Appendix I as published by the International Code Council, be and is hereby adopted as the Fire Code of the City of Solana Beach, in the State of California regulating and governing the safeguarding of life and property from fire and explosion hazards arising from the storage, handling and use of hazardous substances, materials and devices, and from conditions hazardous to life or property in the occupancy of buildings and premises erection, construction, enlargement, alteration, repair, moving, removal, conversion, demolition, equipment use, and maintenance of buildings and structures, including that providing for the issuance of permits and collection of fees therefore; and each and all of the regulations, provisions, penalties, conditions and terms of said Fire Code on file in the office of the City of Solana Beach Fire Department are hereby referred to, adopted, and made a part hereof, as if fully set out in this ordinance, with the additions, insertions, deletions and changes, if any, prescribed in this Chapter.

- B. Sections of Chapter 1 Administration are hereby revised in or added to the 2019 California Fire Code to read as follows:

Section 101.5 City of Solana Beach Validity

The City Council of the City of Solana Beach hereby declares that should any section, paragraph, sentence or word of this ordinance or of the code hereby adopted be declared for any reason to be invalid, it is the intent of the City Council of the City of Solana Beach that it would have passed all other portions of this ordinance independently of the elimination here from of any such portion as may be declared invalid.

Section 102.13 Repeal of Conflicting Ordinances, Resolutions or Motions

All former ordinances, resolutions or motions, or parts thereof, including Ordinance 471, which conflict or are inconsistent with the provisions of this Ordinance or of the Code or standards hereby adopted are hereby repealed.

Section 104.12 Response Map Updates

104.12 Response Map Updates. Any new development, project, or request for change of address which necessitates updating of emergency response maps by virtue of new structures, fire hydrants, roadways or similar features, shall be charged a reasonable fee for the updating of all response maps.

Section 109.4 Violation penalties

A. Any person, corporation, association or entity that violates the provisions of Sections 105, 106, 107, 109, 110, 111 or 113 of the California Fire Code is guilty of a misdemeanor. Any person, corporation, association or entity that violates any other provisions of this chapter is guilty of a misdemeanor or infraction as determined under Chapter 1.16 SBMC. The penalty for violations shall be determined under Chapter 1.16 SBMC. Each day or portion thereof that a violation of this chapter exists shall constitute a separate violation. Each violation of this chapter, in addition to the offenses under this section, shall constitute a public nuisance.

B. The application of the above penalty shall not be held to prevent the enforced removal of prohibited conditions.

C. Section 110.4.11 of the 2019 California Fire Code shall remain in effect.

15.32.030 Definitions

Chapter 2 Definitions – Certain definitions of Section 202 are hereby amended in or added to the 2019 California Fire Code to read as follows:

Section 202 General Definitions

Fire Hazard - is any condition or conduct which a) increases or may increase the threat of fire to a greater degree than customarily recognized as normal by persons in the public service regularly engaged in preventing, suppressing or extinguishing fire or b) may obstruct, delay, hinder or interfere with the operations of the fire department or egress of occupants in the event of fire.

Fireworks - is any combustible or explosive composition, or any substance or combination of substances, or device prepared for the purpose of producing a visible or an audible effect by combustion, explosion, deflagration or detonation, and shall include blank cartridges, toy pistols, toy cannons, toy canes, or toy guns in which explosives are used, firecrackers, torpedoes, sky-rockets, roman candles, Daygo bombs, sparklers, snap caps, poppers or other devices of like construction and any devices containing any explosive or flammable compound, or any tablet or other device containing any explosive substance, except that the term "fireworks" shall not include any auto flares, paper caps containing not in excess of an average of twenty-five hundredths of a grain of explosive content per cap and toy pistols, toy canes, toy guns or other devices for use of such caps, the sale and use of which shall be permitted at all times. "Fireworks" shall include snap caps and poppers, regardless of the amount of explosive content included in each device.

Hazardous Fire Area - Any geographic area mapped by the State or local jurisdiction as a moderate, high or very high fire hazard area, or as set forth by the FAHJ that contains the type and condition of vegetation, topography, weather, and structure density to potentially increase the possibility of vegetation conflagration fires shall be considered a hazardous fire area.

Mid-Rise Building – A building not defined as a high-rise building by section 202 of the California Building Code and is four stories or more in height. Measurements shall be made from the underside of the roof or floor above the topmost space that may be occupied to the lowest fire apparatus access road level. Nothing in section 321 shall imply or allow a building height in excess of current City of Solana Beach planning and zoning requirements.

Level – An area above or below grade including but not limited to: basements, garages, cellars, mezzanines, or similar structures or uses. Separate contiguous levels of a building will be considered separate stories.

Whenever the terms "This Code" and " 2018 International Fire Code" are used they shall mean the 2019 California Fire Code as modified by the City of Solana Beach with the deletions, revisions and additions set forth in the amendments.

In addition to the definitions set forth in the California Fire Code as adopted by reference, whenever the following words or phrases are used in this chapter, they shall have the meanings established by this section:

A. "Chief of fire prevention bureau" means the fire marshal or, if there is none, the chief of the fire department. B. "Jurisdiction" means the City of Solana Beach.

C. "Corporation Counsel" means the city attorney of Solana Beach.

15.32.040 Establishments of limits of districts in which any storage of flammable or combustible liquids in containers and tanks regardless of location are prohibited.

That the geographic limits referred to in certain sections of the 2019 California Fire Code are hereby established and are to read as follows:

Chapter 57 -Flammable and Combustible Liquids

Section 5704.2.9.6.1 Location Where Above-ground Tanks are Prohibited:

In the City of Solana Beach, (geographic limits in which the storage of Class I and Class II liquids in above-ground tanks outside of buildings is prohibited): The limits referred to in Section 5704 .2.9. 6.1 And 5706 .2.4.4 of the 2019 California Fire Code and the 2018 International Fire Code in which storage of flammable or combustible liquids in outside aboveground tanks is prohibited are hereby established as the jurisdictional limits of the City of Solana Beach.

1. EXCEPTIONS:2,000 gallons maximum temporary (six months maximum) above ground tanks meeting UL 2085 for private use on farms, agricultural and rural property, remote construction sites, earth moving projects, gravel pits or borrow pits. Such tanks shall be specially designed, approved and listed, and have features incorporated into their design which mitigates concerns for exposure to heat (two-hour fire resistance), ignition sources and mechanical damage. A fire department permit will be required.
2. Crankcase draining may be stored in specially constructed above ground storage tanks, approved by the Chief, with a maximum capacity of 550 gallons. Such tanks may be located within a building when the Chief deems appropriate, and the container meets the following: specially designed, approved and listed containers which have features incorporated into their design which mitigates concerns for exposure to heat, ignition sources and mechanical damage.
3. Containers must be installed and used in accordance with their listing, and provisions must be made for leak and spill containment. In no case shall such storage be permitted in residential or institutional property. All installations require a fire department permit.

4. With the fire code officials approval, Class I and II liquids may be stored aboveground tanks inside or outside of buildings in specially designed, approved and listed containers which have features incorporated into their design which mitigates concerns for exposure to heat, ignition sources and mechanical damage. Class I liquids will be limited to 550 gallons and class II liquids will be limited to 1,100 gallons. Containers must be installed and used in accordance with their listing, and provisions must be made for leak and spill containment. The Chief may disapprove the installation of such containers when in his opinion their use presents a risk to life or property.
5. With the Chief's approval, temporary storage of a maximum 10,000 gallons of Class II liquids may be permitted for a period not to exceed ninety (90) days at remote construction sites, earth moving projects, gravel pits or borrow pits, consistent with 5704 and 5706.

Section 5706 Special Operations

Section 5706.2.4.4 Locations Where Above-ground Tanks are Prohibited

The storage of Class I and Class II liquids in above-ground tanks is prohibited in residential areas within the geographic limits of the City of Solana Beach.

Section 5706.4 Bulk Plants or Terminals

The geographic limits in which bulk plants and terminals of flammable and combustible liquids are received are prohibited for the protection of heavily populated and congested areas and are hereby established as jurisdiction limits of the City of Solana Beach.

Chapter 61 Liquefied Petroleum Gases

Section 6104.2 Maximum Capacity Within Established Limits

The geographic limits in which the bulk storage of liquefied petroleum gas is prohibited for the protection of heavily populated and congested areas is hereby established as jurisdiction limits of the City of Solana Beach except for areas zoned by the County of San Diego for mixed, general or high impact industrial uses.

15.32.050 Section 308.1.6.3 Revised – Sky Lanterns.

Section 308.1.6.3 is revised in the 2019 California Fire Code to read as follows:

Section 308.1.6.3 – Sky lanterns

Sky lanterns, floating luminary, and similar devices propelled by open flame are prohibited for sale or use.

15.32.100 Section 321 Revised – Mid-Rise Buildings.

Section 321 is added to the 2019 California Fire Code to read as follows:

Section 321 Mid-Rise Buildings

Section 321.1 General

All newly constructed mid-rise buildings, or any midrise building which undergoes a complete structural or non-structural renovation that requires the complete vacancy of the building to complete the renovation shall comply with sections 321.1- 321.5

Exceptions:

1. Buildings used exclusively as an open parking garage.
2. Buildings where all floors above the fourth-floor level are used exclusively as an open parking garage.
3. Buildings such as a power plant, lookout tower, steeple, grain house, or other similar structures with intermittent human occupancy.

Section 321.2 Fire Equipment Control Room

A fire equipment control room for fire department operations shall be provided. The location and accessibility of the room shall be approved by the fire department and be separated from the remainder of the building by not less than a 1-hour barrier. The room shall contain the following at a minimum:

- 1) Voice alarm and public address panels.
- 2) Fire alarm control panel.
- 3) Status indicators and controls for air-handling systems.
- 4) Fire pump status indicators (if required).
- 5) Set of complete building plans.

Section 321.3 Road Dimensions

Fire apparatus access roads serving buildings or portions of buildings or facilities that exceed 30 feet in height above the lowest level of fire department vehicle access shall have an unobstructed width of not less than 26 feet.

15.32.110 Section Fees

Section 106.6 is added in the 2019 California Fire Code to read as follows:

SECTION 106.6 – FEES

When any construction project, building, manufacturing process, hazardous occupancy or such similar occurrence present demands on the fire protection service levels that are in excess of those already established and provided by the fire department, and cannot be mitigated by the installation of fire protection appliances or devices, then the owner and/or operator of that entity shall be responsible for costs associated with necessary training and equipment purchases that may be incurred by the fire department to provide an adequate and safe level of emergency response. This level of emergency response will be established by the Fire Chief.

15.32.120 Section 114 - Firefighting cost recovery.

Section 114.1 is added in the 2019 California Fire Code to read as follows:

Where a fire has resulted from failure to comply with fire safety requirements after notice was given, the Chief may recover costs relating to the response, suppression and overhaul of the fire from the responsible party.

15.32.130 Section 109.4 Abatement of Violation-Non-Compliance Penalty

Section 109.4 is added in the 2019 California Fire Code to read as follows:

When a person fails to comply with a second notice of correction, notice of violation, or notice to cure, the Chief may impose a fee for the recovery of expenses incurred as a result of activities undertaken pursuant to enforcing the fire prevention provisions of this Code. The penalty for non-compliance shall be determined under Chapter 1.16 SBMC.

15.32.170 Section 503 Fire Apparatus Access Roads

The following sections of Chapter 5 – Section 503, Fire Apparatus Access Roads of the 2019 California Fire Code shall be revised to read as follows:

Chapter 5 - Section 503, Fire Apparatus Access Roads

Section 503.2.1 Dimensions

Fire apparatus access roads shall have an unobstructed improved width of not less than 20 feet, except for single-family residential driveways; serving no more than two, single-family dwellings, shall have a minimum of 16 feet of unobstructed improved width.

EXCEPTION:

1. Fire access roadways, gated entrances with card readers, guard stations or center medians, which have separated lanes of one-way traffic, shall be not less than 14 feet wide per lane.

Section 503.2.3 Surface

Fire apparatus access roads shall be designed and maintained to support the imposed loads of fire apparatus not less than 75,000 lbs. and shall be provided with an approved paved surface to provide all-weather driving capabilities.

Section 503.2.7 Grade

Grades exceeding 15.0% (incline or decline) on fire apparatus access roads shall not be permitted without mitigation. Minimal mitigation shall be a surface of Portland cement concrete (PCC), with a deep broom finish perpendicular to the entire direction of travel, or equivalent, to enhance traction the entire length of the grade. Maximum grade shall not exceed 20%.

Section 503.2.8 Angles of Approach and Departure

The angle of approach and angle of departure of a fire access roadway shall not exceed seven degrees (12 percent) or as approved by the Chief.

Section 503.2.9 Roadway Turnouts

Turnouts shall be a minimum of 10 feet wide and 30 feet long with a minimum 25-foot taper on each end.

Section 503.3 Marking

When required by the fire code official, approved signs or other approved notices or markings shall be provided for all public and private fire apparatus access roads to identify such roads or prohibit obstruction thereof. Signs, notices or markings shall be maintained in a clean and legible condition at all times and shall be replaced or repaired when necessary to provide adequate visibility. All new public roads, all private roads within major subdivisions and all private roads serving four or more parcels shall be

named. Road name signs shall comply with City of Solana Beach standards.

15.32.190 Sections 503.4.2, 503.4.3 - Added – Fire lane parking restrictions.

Sections 503.4.2-503.4.3 are added to the 2019 California Fire Code to read as follows:

503.4.2 Fire Lanes – No Parking

No person shall park, stand or leave unattended any vehicles in any fire lane or fire apparatus access road designated and marked according to the provisions of this Section.

503.4.3 Fire Lanes-No Parking

The Chief or the Fire Marshal shall have the authority to designate fire lanes or fire apparatus access roads within the City, and to enforce the provisions of this Section. The Chief or the Fire Marshal may designate existing roadways as fire access roadways consistent with California Vehicle Code Section 22500.1, and 22685 (a) where he/she determines that such designation is necessary to provide adequate emergency apparatus access.

15.32.200 Section 503.6 – Security gates

Section 503.6 of the 2016 California Fire Code is revised to read as follows:

Sec. 503.6 Security Gates

No person shall install a security gate or security device across a fire access roadway without the fire code official's approval.

1. All gates providing access from a road to a driveway shall be located a minimum of 30 feet from the nearest edge of the roadway and shall be at least two feet wider than the width of the traffic lane(s) serving the gate.
2. An automatic gate across a fire access roadway or driveway shall be equipped with an approved emergency key-operated switch overriding all command functions and opening the gate.
3. A gate accessing more than four residences or residential lots or a gate accessing hazardous institutional, educational or assembly occupancy group structure, shall also be equipped with an approved emergency traffic control-activating strobe light sensor or other device approved by the fire code official, which will activate the gate on the approach of emergency apparatus with a battery back-up or manual mechanical disconnect in case of power failure.
4. An automatic gate shall meet fire department policies deemed necessary by the fire code official for rapid, reliable access.
5. An automatic gate serving more than one dwelling or residential lot in existence at the time of adoption of this chapter is required to install an

approved emergency key-operated switch and/or an approved emergency traffic control-activating strobe light sensor approved by the fire code official, at an approved location, which overrides all command functions and opens the gate. A property owner shall comply with this requirement within 90 days of receiving written notice to comply.

6. Where this section requires an approved key-operated switch, it may be dual-keyed or equipped with dual switches provided to facilitate access by law enforcement personnel.

7. Electric gate openers, where provided, shall be listed in accordance with UL 325. Gates intended for automatic operation shall be designed, constructed and installed to comply with the requirements of ASTM F2200.

15.32.210 Section 507 - Fire Protection Water Supplies

The following sections of Chapter 5 – Section 507, Fire Protection Water Supplies, in the 2019 California Fire Code shall be revised to read as follows:

Chapter 5 Fire Service Features

Section 507.2.2 Water Tanks

Section 507.2.2A Water Tanks Table 507.2.2A - Water storage tanks, when permitted by the fire code official, shall comply with Table No. 507.2.2A

WATER STORAGE TANKS
Table No. 507.2.2A

TABLE NO. 507.2.2A			
Building Square Feet	Gallons Per Minute Water Flow	Capacity Gallons	Duration Minutes
Up to 1,500	250	5,000	20
Over 1,500	250	10,000	40
When exposure distance is one hundred feet (100') or less from adjacent property, Or where additional hazards or higher fire flow exists, the required water storage may be modified by the fire code official.			

1. Tank elevation shall be equal to or higher than the fire department connection on the premises. Regardless of domestic use, all tanks shall be equipped with a device that will ensure that the tank contains the designated amount of water for fire flow duration as determined by the fire department. Tank size may be increased to serve multiple structures on a single parcel.

2. Supply outlet shall be at least 4 inches in diameter from the base of the tank to the point of outlet at the fire department connection. The fire

department connection shall provide an approved means of controlling water flow.

3. The outlet shall be located along an access roadway and shall not be closer than 50 feet or further than 150 feet from the structure.

4. All exposed tanks and supply pipes shall be of an alloy or other material listed for above ground use. Adequate support shall be provided.

Section 507.5.1 Where Required

The location, type and number of fire hydrants connected to a water supply capable of delivering the required fire flow shall be provided on the public or private street, or on the site of the premises to be protected or both. Fire hydrants shall be accessible to fire department apparatus by roads meeting the requirements of section 503.

Section 507.5.1.01 Requirements for single family dwellings

In zones other than industrial, commercial and multi-family, fire hydrants shall be installed in accordance with Table No. 507.5.1.1A.

Table No. 507.5.1.1A

TABLE 507.5.1.1A	
Parcels ½ acre and larger:	Every 500 feet to the structure
Parcels less than ½ acre:	Every 350 feet

Section 507.5.1.02 Requirements for multi-family, commercial and industrial zones

In multi-family zones and in commercial and industrial zones, fire hydrants shall be installed at intersections, at the beginning radius of cul-de-sacs, and every 300 feet of fire access roadways, regardless of parcel size.

15.32.230 Sections 903, 905 - General fire extinguishing system requirements

The following sections of Chapter 9 – Fire Protection Systems, in the 2019 California Fire Code shall be revised to read as follows:

Section 902.1 Definitions – Added Definition

LIFE SAFETY SPRINKLER SYSTEM shall meet National Fire Protection Association Standards 13-D and 13-R latest addition, and City of Solana Beach installation policies as appropriate

Section 903 – Automatic Sprinkler Systems

Section 903.2 - Where required

Approved automatic sprinkler systems in new buildings and structures shall be provided in the locations described in sections 903.2.01.1 through 903.2.12, and may be required in additions and remodels of existing structures as described in section 903.2.01

Section 903.2.01 Additions, Remodels and Reconstruction

An automatic sprinkler system installed in accordance with 903.3 may be required to be installed throughout structures when the addition is more than 50% of the existing building or where the scope of work includes significant modifications to the interior/or roof of the building.

Exceptions:

- 1) If the cost of the installation exceeds 15 percent of the valuation of the project. Formal bids shall be provided to the fire prevention bureau to be reviewed for acceptance.
- 2) If the addition to the existing building is strictly for the creation of a new Accessory Dwelling Unit; no additions or remodels to the existing building is permitted.

This section is not intended to require fire sprinkler retrofits for maintenance or improvements of the infrastructure around the structure. Maintenance shall be defined for this section as the normal replacement of existing fixtures. Examples of maintenance work include items such as flooring, plumbing repairs or windows. Improvements required by legislation such as the Americans with Disabilities Act (ADA) do not require fire sprinkler protection under this section.

903.2.02 - New Commercial and Group U

An automatic sprinkler system Installed in accordance with section 903.3 shall be required in new buildings and structures where the required fire flow exceeds 1,500 gallons per minute as calculated by section 507.3., or when the square footage of a new commercial building exceeds 5,000 square feet.

Exception:

Agricultural buildings constructed of wood or metal frame, over which fabric or similar material is stretched, which are specifically used as green houses are exempt from the automatic sprinkler requirements unless physically connected to other structures.

903.2.03 - Existing Commercial Office Buildings

An automatic sprinkler system installed in accordance with section 903 shall be required in existing buildings and structures when the total valuation of the remodel exceeds one hundred thousand (\$100,000.00) dollars.

The renovation of an existing commercial building that is less than \$100,000.00 in cost; that includes any and all work that requires a Building, Mechanical, Electrical, Plumbing or Fire Protection System Permit, will not require the installation of a fire sprinkler or standpipe system. This section shall not supersede state mandated requirements for a specific occupancy, nor apply to any change in use of occupancy.

Section 905 Standpipe Systems - Required Installations

Section 905.3 Standpipes for New Commercial Buildings:

A Class I standpipe with 2.5-inch hose valves shall be provided for all new commercial buildings three levels or more in height, regardless of occupancy type. Hose valves and connections shall be located in each stair enclosure and on each floor level, including the roof. For single story buildings or parking structures with large floor areas, class I standpipe connections may be required when hose pull lengths exceed 150 feet.

Section 905.3.1 Standpipes for Existing Commercial Buildings:

A Class I standpipe system with 2.5-inch hose valves shall be provided for existing commercial buildings three levels or more in height, when the valuation of a remodel exceeds one hundred thousand (\$100,000.00) dollars. The renovation of an existing commercial building which is less than \$100,000.00 in cost; which includes any and all work that requires a Building, Mechanical, Electrical, Plumbing or Fire Protections System Permit, will not require the installation of a standpipe system. If an existing commercial occupancy has a change in use of occupancy, then standpipes will be required to be installed. Hose valves and connections shall be located in each stair enclosure and on each floor level, including the roof. For single story buildings or parking structures with large floor areas, class I standpipe connections may be required when hose pull lengths exceed 150 feet.

15.32.350 Explosives and Fireworks

The following sections of Chapter 56 – Explosives and Fireworks, in the 2019 California Fire Code shall be added to read as follows:

Chapter 56 Explosives and Fireworks

Section 5608.2 Fireworks

Fireworks shall not be sold, manufactured, disposed or discharged within the jurisdictional boundaries of the City of Solana Beach, except when all necessary permits have been issued by all the relevant agencies, including a permit for public display, theatrical purposes and/or group entertainment issued by the fire department, to a California State Fire Marshal licensed pyro-technician and the minimum requirements of Title-19, California Code of Regulations, Chapter-6, fireworks are met. The San Diego County Regulatory Ordinance, Title-3, Division-2, Chapter 1, section 32.101 through 32.108 may be used as a guide when enforcing these requirements.

Section 5608.3 Fireworks Penalty

Any person violating any provisions or failing to comply with this Chapter or the requirements of Title-19 California Code of Regulations, chapter 6, and/or San Diego County Regulatory Ordinance, Title-3, Division-2, Chapter 1, section 32.101 through 32.108, shall be guilty of a misdemeanor and upon conviction thereof, shall be punishable by a fine not to exceed One Thousand dollars (\$1,000) or by imprisonment in the County jail for a period of not more than one year or by both such fine and imprisonment.

Chapter 15.33

HISTORICAL BUILDING CODE

Sections:

15.33.10 Adoption

15.33.010 adoption of the California Historical Building Code, Part 8, Title 24 of the California Code of Regulations. The California Historical Building Code, 2019 edition, Chapter 15.33 is adopted by reference without change to Buildings and Construction Title 15.

Chapter 15.34

EXISTING BUILDING CODE

Sections:

15.34.10 Adoption

15.34.010 adoption of the California Existing Building Code, Part 10, Title 24 of the California Code of Regulations. The California Existing Building Code, 2019 edition, Chapter 15.34 is adopted by reference without change to Buildings and Construction Title 15.

Chapter 15.35

REFERENCED STANDARDS CODE

Sections:

15.35.10 Adoption

15.35.010 adoption of the California Referenced Standards Code, Part 12, Title 24 of the California Code of Regulations. The California Referenced Standards Code, 2019 edition, Chapter 15.35 is adopted by reference without change to Buildings and Construction Title 15.

SECTION 3: SEVERABILITY

If any section, subsection, sentence, clause or phrase of this Ordinance is for any reason held by a court of competent jurisdiction to be invalid, such a decision shall not affect the validity of the remaining portions of this Ordinance. Such section, subsection, sentence, clause or phrase, instead, shall be superseded and replaced by the corresponding provisions, if any exist, of Title 24 of the California Code of Regulations. The City Council of the City of Solana Beach hereby declares that it would have passed this Ordinance and each section or subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid.

SECTION 4: INCONSISTENCIES

To the extent the terms and provisions of this Ordinance may be inconsistent or in conflict with the terms or conditions of any prior City ordinance, motion, resolution, rule or regulation governing the same subject, the terms of this Ordinance shall prevail with respect to the subject matter thereof.

//

//

//

SECTION 5: INTERPRETATION

In interpreting this Ordinance or resolving any ambiguity, this Ordinance shall be interpreted in a manner that effectively accomplishes its stated purposes.

EFFECTIVE DATE: This Ordinance shall be effective thirty (30) days after its adoption. Within fifteen (15) days after its adoption, the City Clerk of the City of Solana Beach shall cause this Ordinance to be published pursuant to the provisions of Government Code § 36933.

INTRODUCED AND FIRST READ at a regular meeting of the City Council of the City of Solana Beach, California on the 23rd day of October, 2019; and

THEREAFTER ADOPTED at a regular meeting of the City Council of the City of Solana Beach, California on the 13th day of November, 2019, by the following vote:

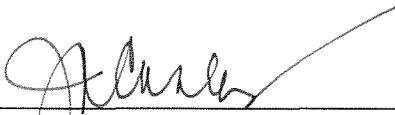

AYES: Councilmembers – Zito, Edson, Hegenauer, Becker, Harless
NOES: Councilmembers – None
ABSTAIN: Councilmembers – None
ABSENT: Councilmembers – None
